

DO NOT CALL means simply that. DO NOT CALL.

Any calls that ask me to "consider this...", "be aware of that...", "we offer something...", "this will enhance...", "listen/watch this..."and similar unsolicited offers or advertisements IS telemarketing.

The DO NOT CALL List has been a wonderful tool. Let's implement it fully and protect our civil right to privacy.

The telephone was invented to communicate-not disrupt, annoy or harass. If I want to see a show on TV or listen to a station on the radio, I will research it on my own terms-not from people who think they know what I want based on what I buy, what companies I patronize or where I live.
